

WORKSHEET

# Define Your Company Values

---

Turn vague ideals into clear values your team can actually live by. Work through this with your leadership team.

## Step 1 — Reflect

- When are we at our best as a team?
- Who are the people we'd happily clone, and why?
- What behaviour do we never want to tolerate?

## Step 2 — Draft 3–5 values

For each value, write a short, plain-language definition.

Value 1 \_\_\_\_\_ means \_\_\_\_\_

Value 2 \_\_\_\_\_ means \_\_\_\_\_

Value 3 \_\_\_\_\_ means \_\_\_\_\_

## Step 3 — Make them real

- For each value, name one behaviour we'd see if it were true.
- Name one behaviour that would break it.
- Decide how each value shows up in hiring, reviews and recognition.

## Step 4 — Keep them alive

- Reference values in decisions, not just posters.
- Recognise people who live them.
- Revisit once a year as you grow.
